Author Index to Volume 6

Biemann, K.: Mass spectrometric determination of the amino acid sequence of peptides and proteins, 1; Erratum, 444

Boutton, T.W.: See Hachey, D.L.

Budzikiewicz, H.: Selected reviews on mass spectrometric topics, 231, 329, 443, 537

Campana, J.E.: Cluster ions. I. Methods, 395

Caprioli, R.M.: Enzymes and mass spectrometry: A dynamic combination, 237

Egge, H.: Fast atom bombardment mass spectrometry for structural elucidation of glyconjugates, 331

Gross, M.L.: See Jensen, N.

Hachey, D.L.: Isotope ratio measurements in nutrition and biomedical research, 289

Harvey, D.J.: Mass spectrometry of the cannabinoids and their metabolites, 135

Jensen, N.: Mass Spectrometry Methods for Structural Determination and Analysis of Fatty Acids, 497

Kalinowski, H.T.: See Smith, R.

Klien, P.D.: See Hachey, D.L.

Kuhara, T.: See Matsumoto, I.

Martin, S.: See Biemann, K.

Matsumoto, I.: Gas chromatography-mass spectrometry for chemical diagnosis of the inherited metabolic diseases—Differential chemical diagnosis of lactic acidosis, 78

Peter-Katalanic: See Egge, H.

Smith, R.: Fundamentals and Practice of Supercritical Fluid Chromatography—Mass Spectrometry, 445

Udseth, H.R.: See Smith, R.

Wong, W.W.: See Hachey, D.L.
